C++
Getting Started...

Mr. Neat
"Buffet"

C++
Getting Started...

- We are going to use an Integrated Development Environment (IDE)
- There are many IDE's and compilers available for C++
- We are using Dev-Cpp (its free)
  - https://sourceforge.net/projects/orwelldevcpp/

Running a C++ Program

practice.cpp

practice.obj

practice.exe

```
#include <iostream.h>

main()
{
              int sue = 5;
              cout << sue;

}
```

compiler → linker →

Library with
code for
iostream.h
